

SURAJ KUMAR

Innovative and driven Web developer with a strong foundation in C programming, HTML, PHP, Java, MySQL and other languages. Demonstrated experience in leading projects and teams in a hackathon setting. Seeking a challenging role to leverage my skills in web development, team leadership, and project management.

WORK EXPERIENCE

Front-end Developer (Get Interact)

August 2022

Siksha 'O' Anushandhan, Bhubaneswar

- Developed and tested the Get Interact platform, focusing on communication in education.
- Leveraged proficiency in HTML, CSS and Javascript to architect and develop the frontend infrastructure, ensuring seamless functionality and scalability.
- Utilized Canva to create visually appealing designs for the platform's interface, enhancing its aesthetic appeal and usability.

Team Leader, Hackathon Project

January 2023

MLRIT University, Hyderabad

- Led a team in the development of an APK using HTML and CSS during a Hackathon.
- Played a key role in project ideation, development, and implementation.
- Presented the project with clarity and confidence, effectively articulating its value proposition and technical intricacies to judges and stakeholders.

PROJECTS

IBM - Play School Educational based gaming Website

- Developed an educational - based gaming website for students to enhance their learning experience through interactive games.
- Integrated various educational games, including history quiz, math challenges, science quizzes, and geography quizzes, that dynamically update on each page reload. [View Website](#)

Suraj Kumar - Portfolio Website

- Developed a responsive and visually appealing portfolio website to showcase my skills, projects, and my background.
- The website includes a dynamic hero section with image slider animations and interactive elements to enhance user engagement. [View Website](#)

Get Interact (Code4Odisha at SOA)

- Created a communication platform for educational purposes.

Student and Teacher Support Platform (Inventron at MLRIT)

- Designed a platform for students to share academic problems, seek advice, and facilitate transactions related to books and instruments.
- A platform for students to provide feedback to teachers while ensuring privacy.

Software Development Intern

- Completed a rigorous internship program at Codsoft, specializing in software development methodologies and practices.

Front-End Development Intern

- Completed a specialized internship in front-end development at Cognifyz, focusing on creating responsive and user-friendly interfaces.

ACADEMIC ACHIEVEMENTS

Secured 4th Rank in Code4Odisha (2022 Odisha Biggest Hackathon)

- Demonstrated exceptional leadership and technical progress by achieving the 4th rank in the Code4Odisha competition.
- Led a highly skilled team through the rigorous challenges of the hackathon, showcasing adept problem-solving skills and innovative thinking.

Achieved 5th Rank in Inventron (2023 MLRIT Hyderabad)

- Showcased outstanding management skills and strategic thinking by securing the 5th rank in the competitive Inventron event.
- Showed strong skills in managing projects and making good decisions even under pressure.

CAREER GOALS

I am to grow as a web developer by working on exciting and innovative projects. My goal is to keep learning new technologies and improving my skills. I want to take on leadership roles where I can guide teams to success and make a positive impact with my work.
